

Rebate Request Form 2018

At Johnson County REMC we are looking out for our members by offering equipment and other rebates to help you lower your monthly electric bill. The program runs annually January through December. See page two for rebate requirements. Rebates are offered on the following.

- SECTION 1 (a & b) Air Source Heat Pump
- SECTION 2 Geothermal Heat Pump
- SECTION 3 Heat Pump Water Heaters
- SECTION 4 Mini-Split Ductless Heat Pump

To receive a rebate for qualifying equipment, please complete the customer information on this page and the applicable section(s) on page two of this form.

Rebate amount listed is *per unit*. Indicate total number of units if more than one.

Please sign the form where indicated, then submit all pages to REMC (see contact information above). Please allow three to four weeks to receive your check, and two billing cycles to receive your credit.

***AHRI Certificate must be furnished for all HVAC equipment.
Please attach or submit contractor and/or equipment invoice.***

PLEASE COMPLETE THIS SECTION:

I certify that the selected equipment was installed in 2018 and is in full operating condition. REMC reserves the right to verify all installations before issuing a rebate.

Please complete contractor /installer information below:

Name of contractor/installer (*attach invoice*)

Phone number of contractor/installer

REMC Customer Name (please print)

Address of installation

SECTION 1a - Air Source Heat Pump Single Family Home – Single or Dual/Variable Speed Compressor (check one)

- _____ **Single Speed Compressor replacement of electric resistance heat\$800**
- _____ **Dual/Variable Speed Compressor new first time unit or replacement of existing\$600**
- _____ **Dual/Variable Speed Compressor replacement of 100% electric resistance heat\$1,500**

Manufacturer _____ Model No. _____

Capacity (tons) _____

Efficiency Rating (must be at least 16 SEER) _____ Date Installed _____

SECTION 1b – Air Source Heat Pump Mobile Home Replacement of 100% Electric Resistance Heat (check one)

- _____ **Single Speed Compressor\$800**
- _____ **Dual/Variable Speed Compressor new first time unit or replacement of existing\$600**
- _____ **Dual/Variable Speed Compressor\$1,500**

Manufacturer _____ Model No. _____

Capacity (tons) _____

Efficiency Rating (must be at least 14 SEER) _____ Date Installed _____

SECTION 2 – Geothermal Heat Pump

*Requires a desuperheater installation for new installation geothermal systems only.

(check one)

- _____ **New unit\$1,200**
- _____ **Replacement of an existing electric resistance heat to geothermal\$1,200**

Manufacturer _____ Model No. _____

Capacity (tons) _____ Date Installed _____

SECTION 3 – Air Source Heat Pump Water Heater (per unit)

New or replacement of existing heat pump water heater\$350

Manufacturer _____ Model No. _____

Capacity (must be 40 gal. or greater) _____ gallons Date Installed _____

SECTION 4 – Mini-Split Ductless Heat Pump – Single or Dual/Variable Speed Compressor

(check one)

- _____ **Dual/Variable Speed Compressor replacement of heat pump\$600**
- _____ **Single Speed Compressor replacement of 100% electric resistance heat\$800**
- _____ **Dual/Variable Speed Compressor replacement of 100% electric resistance heat\$1,500**

Manufacturer _____ Model No. _____

Efficiency Rating (must be at least 16 SEER) _____ Date Installed _____
